Convicts Happy for a Day. The Fourth of July at the state penitentiary was the most gala day in the history of the institution this year, it being one of the two national holidays observed at the state's big boarding house. All of the shops were closed and all labor was suspended, and the convicts given a day rest, replete with entertainment of all descriptions. The freedom of the quadrangle betwen the cell buildup to the men, who arranged many kinds of amusements in the inclosed space. There were running matches, sparring bouts, hop-step-and-jump games, leap frog and baseball, while there were dozens of booths where pies and cakes, lemonade and root beer were sold by convicts, who had invested their small means with an idea of doubling their money. There were also many kinds of games of chance offered by the convicts to their fellow inmates, such as chuck-a-luck, roulette, craps, etc., where the negro convicts shown as stars of the first magnitude and reveled in their own glory. The feature of the celebration was the big dinner set by Warden Wooldridge for the convicts. There was a sumptuous spread and corresponding happiness in all quarters at thoughts of the feast. The dinner consisted of boiled and sliced ham, mashed potatoes, brown, boiled and raw cabbage, onions boiled and raw, bread and butter, followed by demonade and ginger snaps. The quantities required to set this spread were enormous, and are as follows: 3,100 pounds of ham; 1,300 pounds of ginger snaps; 10 bushels of onions; 60

W. F. Shelton, banker and capitalist of Kennett, says of the new industry in southeast Missouri: "It is a well-known fact that the swamps of southeast Missouri produce the largest and finest frogs on earth. For years the epicures of St. Louis and other cities have demanded the Missouri frog, thereby building up a profitable business for the fishermen and frog-catchers of our section. It has been customary to ship the frogs to market alive crated up something like chickens, the fact that some of them are almost as large as hens making this quite feasible. The industry has grown to little less than mammoth proportions and the festive frog is only second to the Missouri mule as a wealth producer in southeast Missouri, the hen having dropped to third place.

THE TARIFF AND DEMOCRACY.

A Glance Backward at the Past E forts of the Party to Lop Off the Duties,

Now that the democratic leaders are turning to tariff reform again, a letter, which has just been published, written by Mr. Cleveland, then presi dent, to the late W. L. Wilson, then chairman of the ways and means committee, possesses considerable interest, says the Washington Star. It is dated August 13, 1894, immediately after the house had been forced to surrender to the senate in the matter of the Wilson tariff bill. Wrote Mr. Cleveland:

land:

"I suppose a man very much distressed and disappointed may write a word of sympathy to another in like situation. We both hoped and wrought for better things, but, now that we know our fate. I shall not let a moment pass before I acknowledge the great and unselfish work you have done in an attempt to bring about an honest and useful result.

"Much has been developed which has oring about an honest and useful result.

"Much has been developed which has shocked and surprised you and me, and I have within the last hour found myself questioning whether or not our party is a tariff reform party. This, however, is only temporary, and such feeling is quickly followed by my old trust in democratic doctrines and the party which professes them. "But I only intend to express my sym-

pathy with you and my gratitude for the fight you have made for real, gen-uine tariff reform.
"I hope now that you will be mindful of yourself and that you will try and re-pair a strained mental and physical con-dition by immediate care and rest."

It has always been claimed by the friends of Mr. Gorman, who superinSOUND IN ESSENTIALS.

Stable Administration, Perso Freedom and Justice Assured the Filipinos.

The house has again abdicated in fafor of the senate. The result of the conference on the Philippine bill is a compromise in which the senate makes a few immaterial concessions to secure the assent of the representatives to the principal clauses in the Lodge bill. The date of the establishment of an assembly to be elected by the Filipinos is set, but at a time which the senate bill substantially provided. The house would not agree to the coinage by the Philippine government of a coinage on a silver basis, and the senate would not consent to a gold standard. The conferees agreed that the silver standard should continue, with the Mexican and Spanish coins at present in circulation, which differ from the currency proposed by the senate only by the mint mark on the dollars. The senate receded from its position as to the amount of government land which may be sold to an individual or corporation, but the multitudinous mining regulations, which might have been better left to the commission, are to be included in the so-called compromise measure, says the Chicago Tribune.

Except in regard to the establishment of a native assembly the compromise bill contains most of the defects of both measures. Judge Taft recommended that government lands be made salable in large quantities to

prove it. The low tariff democrats in Gorman put the screws on everybody, and found in Mr. Murphy, of New York. and Mr. Smith, of New Jersey, two very willing assistants. But the quartette that shaped the bill in the senate was composed of one protectionist, Mr. Gorman, and three low tariff men, Mr. Vest. of Missouri; Mr. Jones, of Arkansas, and Mr. Harris, of Tennessee. Mr. Vest and Mr. Jones were the debaters, and they proved a very formidable pair-Mr. Harris was the parliamentarian, and Mr. Gorman the generalisimo. After they got through with the house bill, its author, as Mr. Cleveland's letter shows, was in a state of disgust and despair, and Mr. Cleveland himself as near the dumps as a man of full habit ever gets.

Many changes have taken place since Mr. Wilson and Mr. Harris are dead. Mr. Jones, through defeat, and Mr. Vest, through choice, will retire from the senate next March, while Mr. Gorman, after six years in private life, will return to that body. Mr. Cleveland and Mr. Bryan are the most eminent democrats living, but neither regards the other as a democrat, and each despairs of the party if the other is to dominate it in 1904.

The defects will be amended as congress becomes better informed of the situation in the islands and learns to intrust to the commission the discharge of duties which its knowledge enables it to perform better than any legislature 5,000 miles away. The Heart-Breaking Experience an English Soldier at the Siege of Ladysmith.

When the Boers besieged Ladysmith they permitted a "camp of refuge" and a field hospital to be established at Intombi, a few miles distant. Here the noncombatants were gathered. And to the hospital, writes George Lynch in the London Daily Express, came every morning the train from Ladysmith, bearing its burden of sick and wounded.

To the dwellers at Intombi that train brought the history of the siege, the daily bulletin written in blood and disease. Women who had husbands and brothers and sons in Ladysmith crowded round it always to see what news it brought, and went away with a sigh of respite and relief when it carried nothing for them. And yet, after a fashion, these wom-en at Intombi were more fortunate

than the men in Ladysmith, since they could learn from the new arrivals how their loved ones fared. But men were not allowed to go backward and forward to Intombi; those who went had to remain; and somehow or other little or no news seemed to reach the garri-In the dearth of news one man in
